## KITCHEN UPDATE: GRANITE SINKS & TOUCH FAUCETS

### Hours:

**Mon—Thurs:**

**7am-5pm**

**Friday:**

**7am-4pm**

A new kitchen sink or faucet can make a big difference in updating your kitchen. Whether you decide to replace your cabinetry or countertops, a new faucet or sink can usually be fitted to any existing holes or spaces.

Two of the most popular upgrades to a kitchen are the granite kitchen sink and the touch/sensor technology faucets. Both options are available from a variety of brands and price levels.

Granite kitchen sinks come in a variety of colors including black, brown, white, beige and more. They are composed of crushed granite or quartz - typically 80%-85% - mixed with a composite fill. The natural stone makes the sinks heat resistant, scratch resistant, stain resistant and

easy to clean & maintain. They are available in top mount and undermount options as well.

Delta, Moen and Kohler all make their own version of a touch or sensor kitchen faucet. These faucets help keep your kitchen clean and efficient. These faucet all still have a handle for manual use and temperature adjustment

Delta offers a variety of styles that can be turned on simply by touching anywhere but the spray nozzle of the faucet.

Moen's MotionSense faucets come in multiple styles as well. Instead of needed to be touched, these faucets have sensors on the top of the spout and on the base to turn water on & off.

Kohler has the Sensate faucet works much like Moen's by incorporating a sensor under the spout to turn water on & off.

For more on granite kitchen sinks and touch or sensor faucets, contact **Lori** or **Julie** with **Bath and Kitchen Consulting & Design**.

### ADAM'S HVAC SERVICE TIP OF THE MONTH

The efficiency of your furnace filter is determined by its MERV rating. This rating is usually found on the filter package or may be stamped right on the filter. A low MERV rating (five and under) will remove leaves, bugs and large dirt particles. A MERV rating greater than 10 can remove bacteria and viruses. Call us today to determine the type of filtration that best suits your needs.

## Happy Anniversary

**TANNER E. (HEATING & AIR)**

October 1st—11 years

**TROY H. (HEATING & AIR)**

October 18th—10 years

**LELAND C. (HEATING & AIR)**

October 24th—3 years

**FEATURED PRODUCTS: GRAB BARS**

Although grab bars are sometimes a necessity, they still can be a stylish addition to a bathroom. Many companies have started making “designer” grab bars that coordinate well with any faucet selection and come in multiple finishes. Some are even incorporated into bathroom accessories like toilet paper holders, shelving and towel bars. Make your bathroom safer and more accessible with stylish grab bars. Give **Lori** or **Julie** a call today for more information.

Scan this code or check out our social media pages for more information.

**WALK-IN TUBS: FUNCTIONAL AND STYLISH**

Walk-in tubs offer at-home accessibility for the elderly and disabled. The seat and swing open door allows bathers of all ages to use the tub without worrying about climbing in and out of a regular tub. The tub features a tub filler with a hand shower for seated bathing.

Having a walk-in tub doesn't mean your bathroom has to look institutional. By adding tile shower walls, a higher shower head for standing showers or a decorative shower curtain, the walk-in tub can be a beautiful addition to your bathroom.

To see if a walk-in tub will work for you, contact **Lori** or **Julie** with **Bath and Kitchen Consulting & Design, Inc.**

**Happy Halloween!!!**

Wi-Fi 9000 Color Touchscreen Thermostat **Honeywell**

Thermostat control from the comfort of anywhere.

HERMISTATS | COOLING | AIR CLEANERS | HUMIDIFIERS | DEHUMIDIFIERS | HY SYSTEMS | HEATING | WATER SOLUTIONS | WIRELESS

**HVAC Specials!**

**Honeywell WIFI Stat**  
**\$349.00** with Fall Check & Service  
 (\$399.00 regular price)

Great for tech-minded homeowners to control from your smart phone or for the Snow Birds that want to check their system from another location.

**Air Knight**  
**\$799.00** with Fall Check & Service  
 (\$850.00 regular price)

A proactive device for great indoor air quality.

Contact Adam with Heating & Air at 222-2155 for more info.

**Air Knight** Cleaner, Fresher Indoor Air in 24 Hours  
**REME**  
 Air Purification System  
 A Photohydroionization™ (PHI) Technology

The Air Knight REME is designed to help eliminate indoor air quality problems by reducing odors, air pollutants, VOCs (chemical odors, smoke, mold, bacteria and viruses). The Air Knight REME is easily mounted into the home's air conditioning and heating system air ducts where many indoor air quality problems start. When the HVAC system is in operation the Air Knight REME creates an Advanced Oxidation Process consisting of: Ionized hydro-peroxides, super oxide ions and hydroxide ions, all of which are friendly oxidizers that react back to oxygen and hydrogen after the oxidation of the pollutant.

REME Technology enhances filtration by charging the particulate in the air forcing dust, dander and allergens to cling together making them easier to capture.

Benefits of Air Knight REME™ Technology  
 With a REME Generator Advanced Oxidation System, micro-organisms can be reduced by over 99%. Gases, VOCs, odors and particulate matter can also be reduced significantly. Charged Advanced Oxidation Plasma will be carried throughout the conditioned space for a continuous purification process and a thorough cleaning of molded areas and members.

Size	Price	Dimensions	Unit	Replacement Cost
11 INCH	\$799.00	14" H x 14" W x 14" D	11 IN	\$11.95
15 INCH	\$899.00	18" H x 18" W x 18" D	15 IN	\$11.95

Charged particles stick together making pet dander and allergens easier to remove.
