FALL MAINTENANCE TIPS

- **Outside Faucets** - Make sure outside faucets aren't dripping or leaking. Make the necessary repairs or call a plumber before freezing temperatures arrive. Even a tiny crack can unleash more than 250 gallons of water in a single day.
- **Remove Window Air Conditioners** - If they must stay in place, be sure to seal them with caulking or tape and cover them with an airtight, insulated jacket.
- **Sump Pump** - Inspect and clean sump pump and pit.

Pumps exposed to extreme cold can freeze, preventing the pump from operating

- **Disconnect Outside Water Hoses** - If left connected, water in the hoses can freeze and expand causing faucets and connecting pipes inside your home to freeze and break.
- **Clean out dust from vents** - Make sure your heating vents aren't blocked by furniture or drapes and the dampers are open. Vacuum out dust and pet hair from warm air registers and cold air returns so your furnace runs more efficiently.

Hours:

Mon—Thurs:

7am-5pm

Friday:

7am-4pm

Closed:

Nov 27th & 28th

**Happy
Thanksgiving!**

ADAM'S HVAC SERVICE TIP OF THE MONTH

Heating and cooling costs account for nearly half the home's energy bill. If your central air conditioning or furnace unit is more than 10 years old, replacing it with an ENERGY STAR® certified, high efficiency Bryant model could cut your cooling costs by 30%.

FROM OUR CUSTOMERS:

"Thank you so much for the prompt service. Your service has made a Northern Plains customer of us for a long time" - Brenda & Robert S.

"Thank you Northern Plains & Tom for the excellent service." - Bob D.

"Thanks! Russ is always so professional & easy to work with!" - Evy C.

BOOST YOUR BRAIN POWER WHILE YOU SHOWER

Have you ever wondered why you get your best ideas in the shower? Studies have shown that taking a shower can increase your problem-solving power. A study reported in Ladies Journal stated that warm water, running over your body, can stimulate the outer layer of your skin releasing molecules to nerve endings that trigger brain activity. Sounds like a perfect reason to take an extra long shower!

Let us show you how to make your "mind stimulating" experience as brilliant as your ideas. Whether it's completely replacing your shower or simply switching to a "Rain" showerhead faucet to give you a softer and more relaxing experience. **Lori & Julie** with **Bath and Kitchen Consulting & Design Inc.** will find exactly what will fit your style and budget. Call **(701)222-2155** for your free estimate and let the brain storming begin!

FEATURED PRODUCTS: HAND SHOWERS

An easy and practical addition to any shower can be a hand held shower head. Whether you replace your existing shower head with a hand shower or add a separate hand shower while remodeling, there is something for everyone. Some of the great benefits of hand showers are using them to rinse shower walls when cleaning and having better water control for shaving legs, washing pets or kids, etc. They can also be installed on slide bars to increase the versatility. One of our favorite hand showers is the Delta In2ition. This shower head fits on a regular shower arm and can be added to any shower by replacing the existing shower head. It has a 2-in-1 feature with the hand shower hooked into the middle of the horseshoe like head. This can be used with just the hand shower on, just the horseshoe part on or both on at once.

Happy Anniversary

(\$399.00 regular price)

Great for tech-minded homeowners to control from your smart phone or for the Snow Birds that want to check their system from another location.

Air Knight
\$799.00 with Fall Check & Service
(\$850.00 regular price)

A proactive device for great indoor air quality.

Contact Adam with Heating & Air at 222-2155 for more info.

Air Knight
REME
A Photocatalytic Oxidation (PCO) Technology

Cleaner, Fresher Indoor Air in 24 Hours

The Air Knight REME is designed to help eliminate indoor air quality problems by reducing odors, air pollutants, VOCs (chemical odors, smoke, mold, bacteria and viruses). The Air Knight REME is easily mounted into the home's air conditioning and heating system air ducts where many indoor air quality problems start. When the HVAC system is in operation the Air Knight REME creates an Advanced Oxidation Process consisting of: Ionized hydro-peroxides, super oxide ions and hydroxide ions, all of which are friendly oxidizers that react back to oxygen and hydrogen after the oxidation of the pollutant.

REME Technology enhance filtration by charging the particulate in the air forcing dust, dander and allergens to cling together making them easier to capture.

Benefits of Air Knight REME Technology
With a REME Generator Advanced Oxidation System, micro-organisms can be reduced by over 99%. Gases, VOCs, odors and particulate matter can also be reduced significantly. Charged Advanced Oxidation Plasma will be neutral throughout the conditioned space for a continuous purification process and a thorough cleaning of mold and mites.

Size	Price	Flow Rate	Flow Rate	Flow Rate
12 INCH	\$799.00	12 CFM	12 CFM	12 CFM
18 INCH	\$899.00	18 CFM	18 CFM	18 CFM

Charged particles stick together making pet dander and allergens easier to remove.
