## KOHLER HIGHLINE TOILETS & PUREFRESH SEATS

### Hours:

**Mon—Thurs:**

**7am-5pm**

**Friday:**

**7am-4pm**

If you are looking to update the toilets in your home, Kohler has some great options whether you want to replace the whole toilet or just upgrade the toilet seat.

The **Kohler Highline** toilets are stylish comfort height toilets and high-efficient! They come in two options—1.28 gallons per flush or dual flush. The 1.28 gpf toilets use a smaller amount of water but still have a good clean flush thanks to their Class Five flushing technology. The dual flush models offer a full or partial flush depending on usage. The partial flush uses 1.1 gallons per flush and the full flush uses 1.6 gallons per flush. Both Highline toilet options come in two pieces with elongated bowls and have four color options including white, biscuit, almond and black. Seats are sold separately.

One way to upgrade the seat of your toilet is with the new **Kohler Purefresh** scented seat. This seat can be added to any existing toilet or used with your new Kohler Highline toilet. It comes in both elongated and round versions and is currently available in white or biscuit. Other features include Quiet Close and a nightlight as well as a carbon filter and scent pack to keep your toilet area smelling fresh. Scent packs are available in Garden Waterfall, Soft and Fresh Laundry and Avacodo Spa. These scent packs provide approximately a month's worth of scent.

For more information on Kohler toilet products, contact **Lori or Julie** with **Northern Plains Plumbing & Heating** at (701) 222-2155 today!

**Merry**

**Christmas!**

### ADAM'S HVAC SERVICE TIP OF THE MONTH

The best defense against heating problems is to make sure your system is maintained year-round. Having heating equipment serviced by a reputable company at least once a year could reduce your heating bill and prevent costly repairs and replacements in the future.

### HOZZ.COM

We now have our own page on Houzz.com! Whether you are remodeling, building new or just needing service, Houzz.com can help you come up with ideas and find the "pros" to execute them. Our page currently showcases work we have done in both new construction and remodels. Take a look and find some inspiration for your next project.

**FEATURED PRODUCT: CURVED SHOWER RODS**

When you are showering, do you ever feel the space could be a little bigger? If so, a curved shower rod could be your answer. Curved shower rods can increase your shower space up to 8"! We have options for 5 foot and 6 foot shower rods and they come in a variety of finishes to match the rest of your bathroom fixtures. If you prefer double rods, those are available in curved rods as well. Double rods allow your shower curtain and liner to hang separately. It is recommended that curved rods are used on tub/shower combinations only. Give **Lori or Julie** a call today for more information on adding a curved shower rod to your showering experience.

Scan this code or check out our social media pages for more information.

**MOEN DESIGNER GRAB BARS WITH ACCESSORIES**

Available in three finishes—chrome, brushed nickel and old world bronze—Moen offers four grab bars that double as bathroom accessories. They have a toilet paper holder, a 24" towel bar, a corner shelf and a 16" shelf. All of the accessories can support up to 250 lbs, feature Secure-Mount™ anchors and reduce the need for multiple fixtures throughout the bathroom.

The neutral designs will complement any bathroom décor.

If you are looking to “combine security and convenience with style and sophistication”, contact **Lori or Julie** with **Northern Plains Plumbing & Heating** at (701) 222-2155 about Moen Designer Grab Bars with Accessories.

A proactive device for great indoor air quality.

Contact Adam with Heating & Air at 222-2155 for more information.

**Air Knight**  
**REME**  
 Air Purification System  
 A Photohydroionization™ (PHI) Technology

Cleaner, Fresher Indoor Air in 24 Hours

The Air Knight REME is designed to help eliminate indoor air quality problems by reducing odors, air pollutants, VOCs (chemical odors, smoke, mold, bacteria and viruses). The Air Knight REME is easily mounted into the home's air conditioning and heating system air ducts where many indoor air quality problems start. When the HVAC system is in operation the Air Knight REME creates an Advanced Oxidation Process consisting of: Ionized hydro-peroxides, super oxide ions and hydroxide ions, all of which are friendly oxidizers that react back to oxygen and hydrogen after the oxidation of the pollutant.

**REME Technology** enhances filtration by charging the particulate in the air forcing dust, dander and allergens to cling together making them easier to capture.

Benefits of Air Knight REME™ Technology  
 With a REME Generator Advanced Oxidation System, micro-organisms can be reduced by over 99%. Gases, VOCs, odors and particles (dust) can also be reduced significantly. Charged Advanced Oxidation Plasma will be neutral throughout the conditioned space for a continuous purification process and a thorough cleaning of molded wires and molders.

Size: P	Price: \$	Dimensions:	Unit ID:	Replacement Cost:
11 INCH	1,999.00	14 INCH	2161	111.00
	6,999.00	2.5 IN	2162	111.00

Charged particles stick together making pet dander and allergens easier to remove.
