DESIGNING YOUR POWDER ROOM

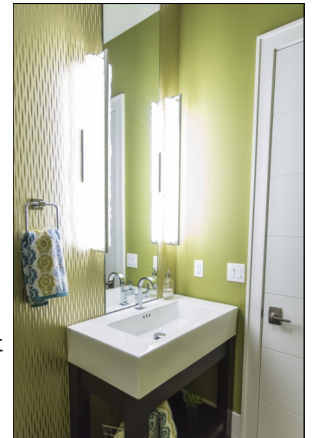

Thanks to its small size, the powder room can be one of the most inexpensive rooms in your home to renovate. It can also make a big impact since it is usually the main bathroom your guests see. Simple changes like new sink or countertop can change the whole look of this small space. Try one or more of these ideas to boost the "wow factor" in your powder bath.

Plumbing Fixtures: A new faucet can dress up the room. Choose something ornate & traditional or streamlined & modern. Vessel lavs work great in powder rooms and come in a variety of materials. Even a stylish new toilet or pedestal lav can make a big difference.

Wall treatment: Choose a bold or deep color for dramatic effect or go with light natural tones for an open feel. This is also a great place to play with textures by using wall paper or tile on the walls.

Décor: Keep it simple & don't crowd the space. Leave room on the counter or a shelf, where guests can place their purse, bag or keys while using the powder room. Remember that your towel bars, toilet paper holders and soap dispensers all contribute to the look of the bathroom.

Looking to remodel your powder room? Call **Lori** or **Julie** at **Bath and Kitchen Consulting & Design** at (701) 222-2155.

SPA ACCESSORY IDEAS

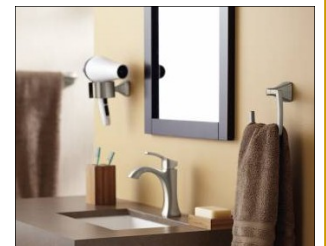

Want to turn your master or guest bathroom into a spa? Here are three easy ways to create a spa-like space without doing a complete bathroom remodel!

Hair Dryer Holder: Moen offers a sleek & contemporary hair dryer holder that mounts on the wall. Your guests will think they are staying at a high-end hotel!

Make-up Mirror: A magnifying make-up mirror that can be mounted on the wall is both functional and luxurious. There are many options including lighted mirrors or mirrors on adjustable bars.

Spa -Towel Holders: Spa-style towel holders can add decoration and storage to a bathroom. Gatco Bathware offers a variety of towel racks for both rolled & folded towels. Or make your own by hanging 2 towel bars vertically for rolled towels!

Turn your bathroom into a personal spa by calling **Lori** or **Julie** at **Bath and Kitchen Consulting & Design** at (701) 222-2155.

WORK WITH A PROFESSIONAL PLUMBER?

When it comes to investments and complex technology, we put our trust in reliable partners if we want our purchases to last longer. Consumer electronics and computers are not the only things that are now becoming more sophisticated and offer more than their predecessors did. Faucets, showers and concealed installation technology in the bathroom & kitchen are also being continually developed further and improved.

- Many manufacturers actually recommend installation by a professional plumber, especially with the constant new innovations in plumbing fixtures.
- Benefit from years of experience for everything from troubleshooting & repairs to consultation and planning for larger projects.
- Have access to tailor-made solutions and save yourself time. Most companies are willing to do the research for you for specific products & solutions to fit your individual needs.
- Building a relationship with a plumber or plumbing company can provide security for fast service in emergency situations.

Interested in working with us on your next project? Contact us at **(701) 222-2155**.

HVAC PREVENTATIVE MAINTENANCE

We are now offering preventative maintenance service plans for HVAC systems. These include discounts on:

- System Checks ♦ Filter Replacements
- Repairs ♦ And More!!

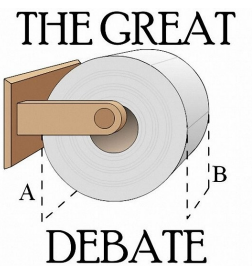

Sign up in August and receive **10% off**. You can find more information at www.northern-plains.com.

ADAM'S HVAC SERVICE TIP OF THE MONTH

With winter around the corner, it is time to look at the energy efficiency of your older furnace. Older furnaces waste \$0.20-\$0.40 for every dollar of gas put into your furnace. With a new 95%-98% efficient Bryant furnace, we convert everything but a few pennies into heat for our home.

Call **Adam** for more information on better efficient heat options for your home at **(701) 595-7167**.

HVAC Specials!

Honeywell Wi-Fi Stat

\$349.00 with Check & Service

(\$399.00 regular price)
