## SHOPPING FOR A BATHROOM SINK

Today, bathrooms are another space to reflect your personal style and decorating taste. As a result, there are many bathroom sink options on the market which can make designing your perfect bathroom even more challenging. Here are some quick tips for choosing what is right for you.

- **Storage needs and installation options:** Sinks in vanity cabinetry offers the best options for storage while a pedestal lav has limited deck and storage space with a larger sink basin.
- **Solid countertops:** These countertop options will allow for an undermount sink installation which will maximize your countertop space.
- **Matching your fixtures:** Consider matching the style of sink with your toilet, tub and shower. Especially if you have a specific design style in mind.
- **Be conscious of your space:** Make sure the style you choice is appropriate for your bathroom space. In small bathrooms pedestal and consol sinks give the illusion of more space due to the

limited floor space they require.

- **Keep materials in mind:** Today sinks can be made of everything from porcelain to granite to copper and more. Make sure what you choose compliments your design style as well as being appropriate for the amount of use it will be getting. Painted sinks are more delicate and require more care compared to a marble or granite sink.
- **Remember to consider your faucets:** Faucets are becoming more of a design accessory and you will want the sink and faucet to complement each other. A sleek modern faucet looks great with a clean glass vessel sink or linear square undermount. Materials, style and faucet height should all be considered.
- **Lastly, always consult your plumber:** Double check with a plumber to ensure that what you have chosen will work with your existing plumbing before purchasing and demolishing your bathroom.

### FROM OUR CUSTOMERS:

"THANK YOU FOR THE FINE JOB OF UPDATING MY HOUSE."

- DENNIS V.

"I WOULD DEFINITELY RECOMMEND NORTHERN PLAINS. THE INSTALLERS WERE GREAT, FRIENDLY AND PROFESSIONAL. THANK YOU!" - KATHY W.

## FIND US ON SOCIAL MEDIA

Did you know that Northern Plains Plumbing, Heating and Air, Inc is on Facebook, Twitter and Pinterest?

You can find our **Facebook** page at [www.facebook.com/NPPlumHeatAir](http://www.facebook.com/NPPlumHeatAir). There you can find company and product updates, pictures of our work, and interesting articles.

Check out our **Twitter** page at [www.twitter.com/NPPlumHeatAir](http://www.twitter.com/NPPlumHeatAir) for everything from design inspiration to product information to cleaning tips.

Our newest social media page is our **Pinterest** page. Here you can find everything from pictures of our work to over the top design ideas. We also have boards for

our favorite products and plan to add boards for cleaning tips, funny pins and more. Our page can be found at [www.pinterest.com/nppha](http://www.pinterest.com/nppha)

**FEATURED PRODUCT: BRIZO CHARLOTTE SERIES**

The Charlotte collection from Brizo offers opulent Art Deco inspired design for your bathroom. According to Brizo, the collection displays the early 20th Century style through "flowing lines and classical elegance." and the "Scalloped handles add a layering detail often seen in ornate art deco buildings and sculptures." This collection of faucets will add a vintage flair without being overly traditional.

The collection comes in four finish options including chrome, brushed nickel, polished nickel and a Cocoa Bronze/Polished Nickel combination. The Brizo Cocoa Bronze is a warm dark bronze finish that will compliment any space. Brizo offers a whole line of products in this collection ranging from tub and shower faucets to sink faucets to mirrors, lights and accessories.

For more information, call **Northern Plains Plumbing & Heating** at (701) 222-2155 today.

**TUB TIME: CHILL CHASER**

With colder weather moving in, a nice long bath can be just what you need to relax at the end of the day. Here is a recipe for a "chill chasing" bath oil soak to help warm you up this winter.

**Ingredients:**

- 5 drops sweet orange oil
- 2 drops ginger oil
- 2 Tbsp. carrier oil (such as aloe or almond or even shampoo)

**Directions:**

1. Fill tub with warm water
2. Add the blended essential and carrier oils
3. Soak for 10 to 20 minutes

**Remember:**

Wait until the tub is filled to add your oils because running water can make them evaporate quickly.

Consult a doctor before using if you are pregnant, have heart problems or high blood pressure.

**COMING SOON!!**

We are in the process of revamping our website and it will soon have a new look. Keep an eye on our Facebook & Twitter pages for updates!
