Comfort Height Toilets: Combine Comfort & Accessibility

Toilets are quite possibly the most important plumbing fixtures in your home. You want...Functional! Well Flushing! Comfortable!

Comfort Height Toilets are taller and easier to sit on. It's also considered handicap accessible.

Toto offers a competitively priced, good flushing toilet. The Entrada toilet utilizes Toto's E-Max flushing system with a 3" flush valve to provide a powerful flush every time while still being high efficient. Available in Cotton & Sedona Beige, this toilet can be purchased with a round or elongated bowl.

American Standard's Cadet Pro toilet is one of our most popular options. The Cadet system also features a larger 3" flush valve for a good flush. This toilet comes in both comfort height and standard height options. They also have a concealed trapway option as shown.

For more information, contact Lori at Northern Plains Plumbing by calling (701) 222-2155.

DESIGNER GRAB BARS

DON'T GIVE UP STYLE!

Just because age or a handicap requires bath safety products or grab bars!

Check out the designer series of grab bars, assist bars and bath safety products. They come in traditional or contemporary lines in a variety of sizes and finishes. They offer assist bars integrated into toilet paper holders, towel bars and shelves to provide assistance around the bathroom.

Bath safety doesn't have to be ugly. Call us at Northern Plains Plumbing for more information at (701) 222-2155.

Plumbing Service Department

Don't forget to call our service department for your plumbing needs. We service both residential and commercial buildings in the Bismarck/Mandan area with everything from leaks to new water heaters. Just a few of our services include:

- ◆ Water heater service & replacement
- ◆ Toilet repair & replacement
- ◆ Faucet repair & replacement
- ◆ Boilers, hot water heat & radiators

Call **Northern Plains Plumbing & Heating** today at (701) 222-2155.

FEATURED PRODUCT: KOHLER HYDRORAIL SHOWER COLUMNS

The Kohler HydroRail Shower Columns allow you to add a hand held with slide bar to your standard shower system without having to do any major remodeling. The rail replaces your existing shower arm and provides an outlet for your shower head as well as a hand held. The built-in diverter allows you to switch the water from the shower head to the hand held. They are available in bath/shower, shower, rain head and hand held only options. The rail comes in five finishes to match your existing shower valve.

Interested in a Kohler HydroRail Shower Column? Call **Bath and Kitchen Consulting & Design, Inc.** at (701) 222-2155.

TIPS FOR CHOOSING A SHOWER HEAD

- ◆ **Think about who will be using the shower**—Will it just be you? Your family of 5? The dog? Take into consideration the preferences and needs of each person (or pet) using this shower & showerhead.
- ◆ **Make a list of preferences and habits**—Do you want a multi-spray function? How much pressure do you need? Do you want something detachable for washing down the kids or pets? Large rain heads give a softer spray while smaller heads can be more effective when rinsing out long hair. Detachable hand showers can be useful for cleaning large showers in addition to regular use.

Call **Northern Plains Plumbing & Heating** at (701) 222-2155 to replace your shower head.

ADAM'S HVAC SERVICE TIP OF THE MONTH

Turn down your thermostat to 68 degrees. For every degree you **lower your heat** in the 60-degree to 70-degree range, you'll **save up to 5 percent on heating costs**. Wear warm clothing like a sweater and set your thermostat to 68 degrees or lower during the day and evening. For more energy saving tips or to talk about installation of a new high efficient furnace contact Adam @ 701-222-2155.
