IT TAKES THE BEST IN HOME COMFORT.

The Evolution Extreme and V heat pumps are in a class of their own.

When it comes to high-performance products, Bryant heat pumps stand out from the rest. The unparalleled Evolution Extreme and Evolution V heat pumps are backed by efficient, variable-speed technology with benefits suited to meet your home comfort needs.

Evolution Extreme

- Top of the line system delivers highest energy savings
- Up to 13 HSPF and up to 20.5 SEER

Evolution V

- Unprecedented efficiency in a smaller package
- Up to 11 HSPF and up to 18 SEER

Bryant. What ever it Takes.

GO DUCTLESS!

If you are tired of listening to that loud window air conditioner or uncomfortable in the room that has

no forced air heating or cooling then Northern Plains has the solution. Bryant Ductless Air conditioners and Heat pumps are the perfect solution to these problem areas. We offer many options from a single room unit to multi-head units serving a whole house that can make your home more comfortable. The indoor units also come in a variety of styles to suit your needs. These ductless units can be used in either cooling or heating mode, are very efficient, and whisper quite. Take the next step in whole home comfort by calling Adam with Northern Plains Heating & Air at (701) 595-7167.

ADAM'S HVAC SERVICE TIP OF THE MONTH

We have partnered with American Bank Center in Bismarck to offer you the most competitive rates and ease of approval. Tired of 3rd party companies and waiting on hold for answers? We have kept everything local so you can work with people you can trust.

For more information contact Adam at (701) 595-7167.

What Customers Say about us!

- ◆ “Have to thank you for the great service, the guys were out right away and very knowledgeable on my water booster pump!” – Roxanne E.
- ◆ “Thank you for the fine work and the very kind workers! We are so impressed, Lori you followed through on everything.” - Cindy & Ernie T.
- ◆ “We built our ranch home in 2007 and we have never been happy with the heating/air-conditioning system out there. When the thermostat was turned on in the apartment above the garage, it would regulate the right side of the upper level of the main house. The initial Heating & Air contractor had definitely messed up when installing the system. They were out there many, many times and it never got better. The worst thing was the loud high pitched whistling sound that came on in the main home upper bedrooms EVERY time the system kicked on. Over the years, we’ve had other AC contractors out there and they didn’t help either. I asked Kel if we couldn’t have your guys TRY to see if anything could be done when you were out there installing the ground work for the addition. Thank God, your people knew what they were doing. I know that they couldn’t change the installation problem but guests can now sleep comfortably upstairs. I just wanted to tell you that your technicians did a great job. Thank you so very much. I wish we would have had you years ago. “ - Launa M.

PLUMBING SERVICE DEPARTMENT

Don't forget to call our service department for your plumbing needs. We service both residential and commercial buildings in the Bismarck/Mandan area with everything from leaks to new water heaters. Just a few of our services include:

- Water heater service & replacement
- Toilet repair & replacement
- Faucet repair & replacement
- Boilers, hot water heat & radiators

Call Northern Plains Plumbing & Heating today at (701) 222-2155

CLEVER CAR WAX USES

- After using your regular cleaner, apply wax to the sides of your tub annually (don't apply to the floor of the tub or it will be slippery!). We suggest a natural wax vs. a synthetic. Buff clean before the wax dries.
- Rub a thin layer onto a bathroom mirror and buff it clean for a fog-free mirror.
- Use on your bathroom & kitchen faucets to keep them shiny & spot free.
