Falling temperatures and leaves are soon in sight. Northern plains Plumbing, Heating & Air doesn't want you to be left unprepared for the troubles associated with extreme cold. Here is a list of a few simple preparations that will help prevent headaches and costly repairs these coming winter months.

- ◇ **Disconnect outside water hoses.** If left connected, water in the hoses can freeze and expand causing faucets and connecting pipes inside your home to freeze and break.
- ◇ **Make sure outside faucets aren't dripping or leaking.** Call Northern Plains for the necessary repairs before freezing temperatures arrive. Even a tiny crack can unleash more than 250 gallons of water in a single day.
- ◇ **Inspect and clean sump pump and pit.** Pumps exposed to extreme cold can freeze, preventing the pump from operating.
- ◇ **Change your filters** every month for optimum efficiency. We sell a full line of filters and sizes.
- ◇ Call Northern Plains **inspect your forced air furnace or hot water heat system** at the start of the heating season.

Call Northern Plains to schedule fall service at  
(701) 222-2155.

## 2017 FALL PARADE OF HOMES

**IT TAKES THE BEST IN HOME COMFORT.**

The Evolution Extreme and V heat pumps are in a class of their own.

When it comes to high-performance products, Bryant heat pumps stand out from the rest. The unparalleled Evolution Extreme and Evolution V heat pumps are backed by efficient, variable-speed technology with benefits suited to meet your home comfort needs.

**Evolution Extreme**

- Top of the line system delivers highest energy savings
- Up to 13 HSPF and up to 20.5 SEER

**Evolution V**

- Unprecedented efficiency in a smaller package
- Up to 11 HSPF and up to 18 SEER

**Bryant. What ever it Takes.**

For more information, contact Adam at (701) 595-7167.

**SHOWER OUT LOUD.**

Showering has never been so fun. Moxie lets you stream your favorite music, news or talk radio right in the shower with you. The Moxie showerhead holds a portable wireless speaker that pairs wirelessly with Bluetooth®-enabled devices to deliver high-quality audio to your shower. The speaker docks directly into the showerhead, so your music is closer than ever when showering. While it plays your favorite sounds, this revolutionary showerhead generates a full-coverage, revitalizing

spray of water for a sensory experience like no other.

**ADAM'S HVAC SERVICE TIP OF THE MONTH**

School is in full swing, the leaves are changing color, and that pumpkin spice latte just isn't enough to stave off the morning chill. It's soon time to switch your HVAC system over to Heat. Try turning your thermostat to the heat mode and raising the temp a few degrees to force the furnace to come on. By making sure it comes on early in the season you may save a cold night or a costly after hours repair when the cold really settles in. Call Adam to schedule a fall furnace check and service.

For more information contact Adam at 701-595-7167.
