**BMHBA Home Show**

**March 14-16, 2014**

(See back for more details)

#### REMODEL IDEA: STERLING TUB / SHOWER

Do you need to replace your current tub/shower? By putting in a new tub/shower unit, you can make a big impact on your bathroom. One of our most popular units is the Accord remodeler from Sterling. This model can come in both 60"x32" and 60"x36" sizes and is available with a whirlpool system. These units come in four caulkless interlocking pieces (the tub and 3 wall panels) that can easily be moved into your home. Made of Vikrell® material, they are easy to clean and maintain. The curved back wall adds showering space and multiple corner shelves provide good storage space. Contact **Julie** or **Lori** at (701) 222-2155 for more information on this and other Sterling products.

#### FEATURED PRODUCT: INSINKERATOR INSTANT HOT WATER DISPENSER

(Additional Styles Available)

What would you do if you had 200°F water instantly at the tip of your fingers? Mix hot cereals and beverages? Instantly prepare sauces and mixes? With an **Instant Hot Water Dispenser** from **InSinkErator**, you could do this and more. The 2/3 gallon stainless steel hot water tank is located below the sink and offers 100 cups per hour of 200°F water. The stylish faucet fits easily into a standard 1-1/4" sink opening and will compliment any style kitchen faucet.

Want to learn more about how the **InSinkErator Instant Hot Water Dispensers** work or to see available models? Contact **Lori** or **Julie** at **Northern Plains Plumbing** by calling (701) 222-2155.

## Come See Us at the 2014 BMHBA Home Show

The annual BMHBA Home Show will be held on **March 14-16, 2014** at the Bismarck Civic Center. Northern Plains Plumbing, Heating & Air will again have 2 different booth locations at this year's show. We will be showcasing new and upcoming products that are also environmentally friendly for your home.

Stop by to check out what we can do or to just say hi! We will look forward to seeing you there. Can't wait to check out some exciting new products or need more information? Visit our website at [www.northern-plains.com](http://www.northern-plains.com) or call us at (701) 222-2155.

### Home Show Hours

Friday: 3pm—9pm

Saturday: 10am—5pm

Sunday: 12pm—5pm

Scan this code or check out our social media pages for more home show information,

## DELTA TEMPASSURE® THERMOSTATIC VALVES

The TempAssure® thermostatic valves from Delta give their users more control over the temperature of their water. The valves automatically adjust the mix of hot & cold to maintain a more precise and consistent water temperature within a safe  $\pm 3^{\circ}\text{F}$ . TempAssure® valves also have a high-temp limit stop. When the limit stop is used properly, it can help make sure the valve handle can not be turned to a temperature that is too hot for comfort.

For more information on Delta TempAssure® thermostatic valves or to see what styles and finishes are available, contact **Lori** or **Julie** with **Northern Plains Plumbing** today at (701) 222-2155.

## FEATURED PRODUCTS: DELTA BATH SAFETY

The new designer grab bars by Delta are now available! These products provide bath safety without sacrificing style. They have three design styles—Traditional, Transitional & Contemporary—and each style features a paper holder, corner shelf and double towel bar paired with assist bars as well as 4 sizes of grab bars. They also have an Angular Modern style grab bar available in 4 sizes. The grab bar sizes for all styles are 12", 18", 24" and 36". All of these products are available in Chrome, Brilliance Stainless, Venetian Bronze and Champagne Bronze. The Traditional style products are also available in an additional finish—Polished Nickel. With all of these new options, Delta can make the bathrooms in your home safe and stylish at the same time. For more information on Delta Bath Safety products, call **Lori** or **Julie** with **Northern Plains Plumbing** at (701) 222-2155.
