April 16th — 2 years

Mike M. (Plumbing)
April 21st — 4 years

Andy D. (Excavating)
April 22nd — 1 year

Scott S. (Plumbing)
April 26th — 8 years

◆ **Delta**—Delta offers more than 15 kitchen and bar faucet styles with their Touch2O technology as well as 4 bathroom faucets. Their bathroom faucets also have a sensor feature to make them completely touchless. Delta's system allows you to touch anywhere on the faucet spout to turn the water on and off, and it recognizes the difference between a touch and a grab. This allows for easy use of the faucet sprayer as well as being able to turn the spout.

◆ **Moen**—Moen offers the MotionSense technology which has two motion sensors and creates a truly hands-free faucet. The sensors are located on the faucet base which is great for messy hands and the top of the spout which works well for filling the sink or large pots. MotionSense is currently only available in two kitchen styles.

◆ **Kohler**—Kohler has the Sensate faucet with Response Technology. This faucet features a sensor under the curve of the spout and will turn on/off by waving your hand, pan or utensil under the sensor.

Want more information on hands free faucets? Contact **Lori** or **Julie** at Northern Plains Plumbing by calling (701) 222-2155.

Thank You

to everyone who stopped by our booths at the BMHBA Home Show this year. We had a great turn out of both new and current customers. We hope to see you all at the show again next year.

The BMHBA Spring Parade of Homes will be April 25th-27th and May 2nd-4th. Check our social media pages for more information.

REVERSE OSMOSIS DRINKING WATER

“Water is our most precious resource and is a critical component to good physical health.” With a PS-5 drinking water system, you can give your family the “purest, most refreshing” water right from the tap in your home.

- ◆ The green design utilizing the latest in system design and membrane technology reduces the amount of water wasted down the drain by 50%.
- ◆ Quick and easy yearly maintenance.
- ◆ Tested according to the NSF/ANSI Standard 58 for the reduction of TDS, arsenic, cysts, fluoride and lead.

For more information on the PS-5 drinking water system, contact **Lori** or **Julie** with **Northern Plains Plumbing** today at **(701) 222-2155**.

FEATURED PRODUCT: STERLING ACCORD SEATED SHOWERS

Are you looking for a unique fiberglass option to replace an existing shower or tub/shower? Take a look at what the Sterling Accord Seated Shower has to offer:

- ◆ Comes in multiple interlocking pieces for an easy water-tight installation.
- ◆ Grab bar ready with factory installed backerboards
- ◆ Has an extra-wide removable bench that can be used at either end of the shower for comfort & stability.
- ◆ Plenty of room & storage
- ◆ Available in white, biscuit & almond color options and sizes 48”x36” & 60”x36”

For more information on Sterling shower products, call **Lori** or **Julie** with **Northern Plains Plumbing** at **(701) 222-2155**.
