Brizo Articulating Kitchen Faucet

New from Brizo is the Articulating Kitchen Faucet. This kitchen faucet was inspired in part by high-profile chefs who made it clear that their home kitchens were missing the "efficient functionality" of the commercial spaces they work in.

The articulating faucet's spray wand can be easily docked and undocked without it's shepherd's hook hose losing shape over time. Add that to a collection of innovative technologies, including MagneDock®, and the new articulating faucet helps create a work flow that's as smart as it is versatile.

Solna Collection in Matte Black

Artesso Collection in Stainless Steel

"The beauty of the articulating arm is how well it can direct water where you need it."

The articulating faucet design has been incorporated in both the Artesso and Solna faucet collections. For more information on Brizo articulating kitchen faucets, call **Lori** or **Julie** with **Northern Plains Plumbing** at (701) 222-2155.

Come See Us at the 2016 BMHBA Home Show

The annual BMHBA Home Show will be held on February 19-20, 2016 at the Bismarck Event Center. Northern Plains Plumbing, Heating & Air will again have two different booth locations at this year's show.

Stop by to check out what we can do or to just say hi! We will look forward to seeing you there.

Home Show Hours

Friday: 3 PM—9 PM

Saturday: 10 AM—6 PM

Kitchen Trends for 2016

The kitchen will always be the heart of a home, so whether you're building a new home or remodeling your existing keep these trends in mind.

- ◆ **Larger islands** have become a kitchen centerpiece for everything from food prep to casual dining.
- ◆ **White and gray cabinets** will be the dominant choices through 2016.
- ◆ **Clever storage solutions** are a popular cabinet upgrade. Some popular options include rollout trash bins, hidden electronic charging stations, multi-tier drawers and slender pull-out cabinets.

- ◆ **Quartz countertops** will continue to be the most popular choice for kitchens thanks to their durability.
- ◆ **Apron sinks** are popular for all design styles and come in a variety of sizes and materials including stainless steel and copper.
- ◆ **Touch or motion kitchen faucets** are gaining popularity in the kitchen. They improve functionality and cleanliness in the kitchen and are available in many styles.
- ◆ **In new homes**, the kitchen sink & faucet is still one of the most popular upgrades—especially among plumbing fixtures!

To learn more about plumbing fixture options for your kitchen call **Lori** or **Julie** with **Northern Plains Plumbing** at (701) 222-2155.

HVAC PREVENTATIVE MAINTENANCE

We are now offering preventative maintenance service plans for HVAC systems. These include discounts on:

- System Checks
- Repairs
- Filter Replacements
- And More!

You can find more information at www.northern-plains.com/preventative-maintenance.aspx

ADAM'S HVAC SERVICE TIP OF THE MONTH

You can save as much as 30% on energy bills by covering up drafty windows & doors and sealing air leaks, according to the Department of Energy. A rolled-up towel is an easy and cheap way to stop a draft. You can also fill a scrap of fabric with sand to create a sturdier seal. Temporarily cover up windows with insulating plastic, which helps keep heat in. Drafts can affect the thermostat reading too, so these simple fixes may solve more than one winter energy challenge.
